Re: Life Safety Inspection Vault (LIV)

In February 2024, the Campbell County Fire Department will be implementing Life Safety Inspection Vault (LIV), which is a web-based technology service and analytic suite that assists Fire Prevention to proactively oversee life safety systems and ensure a safer community. Fire Prevention is utilizing LIV to efficiently manage and maximize the inspection, testing, and maintenance of the fire and life safety systems that require annual third-party inspections. If you are receiving a letter from Fire Prevention stating you are due for an inspection, the system is working. If you have questions or are concerned about the validity of the letter, please contact Fire Marshal Stuart Burnham at sburnham@ccfire.us
